The screenshot shows the VS Code interface with the Explorer sidebar on the left displaying the file structure: FSD TRAINING, products, orders.txt, product.txt, and login.html. The main editor area shows the content of product.txt, which contains a JSON array of two objects. The bottom terminal pane shows the output of a series of git commands: git pull origin Main, git log --online, git reset --soft 563f212, git log --online, git reset --hard 9bc1089, git add ., and git commit -m "updated for revert". The status bar at the bottom indicates the current branch is Main and the file encoding is UTF-8.

```
products > product.txt
27 {
28   id:5,
29   name:Air pods,
30   price:20000,
31 }

9bc1089 (HEAD -> Main, origin/Main) products and orders list
PS C:\Users\navya\OneDrive\Documents\FSD Training\products> git pull origin Main
